

Question No-09:

//Program to read personal details and display in a specified manner

```
#include<stdio.h>
```

```
int main()
```

```
{
```

```
    char name[50],gender,place[50];
```

```
    printf("Enter your Name :");
```

```
    scanf("%[^\\n]",&name);
```

```
    printf("Enter your Gender(M/F) :");
```

```
    fflush(stdin);
```

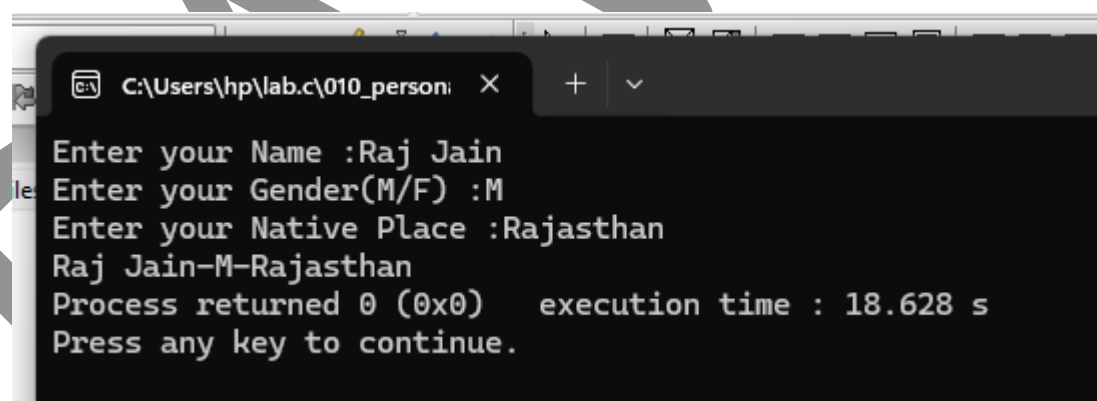

```
    scanf("%c",&gender);
```

```
    printf("Enter your Native Place :");
```

```
    scanf("%s",&place);
```

```
    printf("%s-%c-%s",name,gender,place);
```

```
}
```

```
C:\Users\hp\lab.c\010_person: X + v
Enter your Name :Raj Jain
Enter your Gender(M/F) :M
Enter your Native Place :Rajasthan
Raj Jain-M-Rajasthan
Process returned 0 (0x0)   execution time : 18.628 s
Press any key to continue.
```
