Question No-30:

//Program to check whether the inputted number is even or odd

#include<stdio.h>

int main()

{

   int no;

   no=0;

   printf("Enter a Number :");
   scanf("%d",&no);

   no%2==0?printf("Even"):printf("Odd");

   return 0;

}

```
C:\Users\hp\lab.c\030_even2.    ✕    +    ∨

Enter a Number :15
Odd
Process returned 0 (0x0)    execution time : 1.630 s
Press any key to continue.
```
